Monkeypox Symptoms Include:
- Fever
- Headache
- Muscle Aches
- Backache
- Swollen Lymph Nodes
- Chills
- Exhaustion
- and a Rash that can look like Pimples or Blisters

Monkeypox Rash
The monkeypox rash can appear anywhere on the body including mouth, genitals and anus. The rash will blister, scab, and fall off over a two – four week period. The person is contagious until the rash has fully healed and a fresh layer of skin has formed.

MONKEYPOX SPREADS THROUGH PHYSICAL CONTACT WITH:
- Infectious rash, scabs, or body fluids
- Personal belongings (like clothing) that have made contact with sores
- Respiratory droplets

Pregnant people can spread the virus to their fetus through the placenta.

HAVE SYMPTOMS?
HERE’S WHAT TO DO:
- Call a Healthcare provider immediately about getting tested!
- Isolate at home
- Avoid any close physical contact
- Wear a mask when around others
